DETAILED ACTION

1. Claims 1-13, 16, 25-40 have been cancelled by Applicant.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/28/2003 has been entered.

Specification

3. The amendment filed 7/28/2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: (1) the newly added claim limitations regarding substantial transparency (claims 49, 52, 57, 59, 67, 69); (2) the newly added claim limitations regarding shrinkage up to about 3.88% (claim 69).

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

Art Unit: 1773

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 49-73 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. See the reasons for the objection to the amendment filed 7/28/2003 under 35 USC 132 as stated above. Applicant is required to point out *with specificity* any purported support for the claim language in question.

6. Claims 22-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 22-23 are unclear and confusing because they appear somewhat inconsistent with claim 20, which specifies a maximum shrinkage of 3.887% in an in-plane direction. If Applicant is attempting to claim the shrinkage in a different in-plane direction, appropriate language (e.g., "in a second in-plane direction", etc.) should be used.

Allowable Subject Matter

7. Claims 14-15, 17-21, 24, 41-48 are allowable over the prior art of record.

Art Unit: 1773

8. Claims 22-23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fails to disclose or suggest laminates comprising a non-wrinkling heat-shrinkable selectively reflective birefringent dielectric film sandwiched between two substrate layers, wherein "birefringent dielectric film" is interpreted as being a non-metallic film.
